From Innovation To Impact: How Alpine Regions Can Build Stronger, Greener And More Digital Health And Care Systems

Date:
10-Dec-2026
01.00 pm - 02.30 pm

Venue:
Online

Costs:
free of charge

Type:
Workshop

Target group:
research, industry, healthcare, patients, political decision makers

Organiser:
BIOPRO Baden-Württemberg GmbH

Contact:
Larissa Ketterer
Phone: +49 (0)711 218185 49
Email: ketterer(at)bio-pro.de

Language:
English

How can regions succeed in bringing green and digital health innovations more quickly to where they are truly needed – into hospitals, long-term care facilities, and integrated healthcare? And which methods did the partners in the HACK-IT-NET project develop and use to support innovation transfer in concrete terms?

These questions are the focus of the event "From Innovation To Impact: How Alpine Regions Can Build Stronger, Greener And More Digital Health And Care Systems", organised by the HACK-IT-NET Interreg Alpine Space consortium. The event centers on exchanging ideas on how transnational cooperation can improve access to green and digital innovations. In three themed breakout rooms (see programme), you will explore the solutions identified and developed by the HACK-IT-NET partners and have the opportunity to share your own experiences and ideas for making health and care systems more resilient, more digital, and more sustainable (ecologically as well as socially).

Why participate:

- You will discuss with stakeholders across the entire health and care sector how regional innovation transfer succeeds.
- You will contribute your perspective in interdisciplinary dialogues and work on regional key future themes.
- You will jointly prioritise the most important levers for collaborative, digital, and green transformation.
- You will expand your transnational network and make new contacts in the sector.

Following the event (from 3:00 p.m. to 4:30 p.m.), the project partners of the HACK-IT-NET consortium also warmly invite you to take part in individual workshops. Further information on scope and topics will follow soon.

Programme

1:00 p.m. – 1:05 p.m. | Welcome

1:05 p.m. – 1:25 p.m. | What does health innovation transfer really mean for Alpine communities?

1:25 p.m. – 1:50 p.m. | Workshop session

- Room A: Digitalization & user-centered approaches in health and care
  - Moderation: Programma Mattone Internazionale Salute (ProMIS), University Medical Centre Maribor (UKCM)

- Room B: Sustainable transformation and ecological responsibility in healthcare
  - Moderation: Niederösterreichs Landesgesundheitsagentur (NÖ LGA), Carinthia University of Applied Sciences (CUAS), Bayern Innovativ GmbH (BI), BIOPRO Baden-Württemberg GmbH (BIOPRO)

- Room C: Co-creation & cross-sectoral dialogue in the healthcare sector
  - Moderation: Autonomous Province of Trento (PAT) , BioValley France (BVF) , Hochschule Luzern (HSLU)

1:50 p.m. – 2:10 p.m. | Short presentations

2:10 p.m. – 2:25 p.m. | Shift in perspective: What is crucial from EU´s point of view?

- Adina Schmid, Project Officer at Joint Secretariat of the Interreg Alpine Space programme

2:25 p.m. – 2:30 p.m. | Closing and Outlook

The workshop is taking place as part of the Interreg project HACK-IT-NET. Through HACK-IT-NET, innovation and knowledge transfer in the health and care system is strengthened – with the overarching goal of improving the conditions for health and care across the entire Alpine region. The Interreg project HACK-IT-NET is co-financed by the European Union.

Consortium partners

Lead Partner: Local Health Authority Veneto Region (ProMIS) from Italy

Partners:

Six countries with nine organisations:

Italy:

- Local Health Authority Veneto Region (ProMIS)
- Autonomous Province of Trento (PAT)

Austria:

- Health Agency of Lower Austria (NÖ LGA)
- Carinthia University of Applied Sciences (CUAS)

France:

- BioValley France (BVF)

Switzerland:

- Lucerne University of Applied Sciences and Arts (HSLU)

Slovenia:

- University Medical Centre Maribor (UKCM)

Germany:

- Bayern Innovativ GmbH (BI)
- BIOPRO Baden-Württemberg GmbH (BIOPRO)
