Europes No. 1 event for biotechnology and life sciences takes place in Hannover from the 6th to the 8th of october. For the first time the BIOTECHNICA is accompanied by the LABVOLUTION. This fair, taking place in parallel, links biotechnology and lab-technology of various sectors. Again, BIOPRO Baden-Württemberg is the organiser of the joint stand of Baden-Württemberg. Are you interested in joining the Baden-Würrtemberg stand? Please contact us.

Present your products and services to international experts and establish valuable contacts. Use the marketplaces to topics like bioeconomy and personalised medical engineering or the international partnering-tool of the fair.

> LABVOLUTION - the associated fair links biotechnology and lab-technology of various sectors.

Meet experts from science, research and industry on the topics lab-technology and -infrastructure, analytics, articles of necessity and consumables, reagents and chemicals, applications and process engineering of the sectors

- chemistry
- pharma
- biotechnology
- plastics
- material development
- materials testing
- cosmetics
- medical, environmental and food industry
