# Meet & Match: Computer- and robot-aided surgery

Date:

25-Jun-2018

10.00 am - 05.30 pm

Venue:

Strasbourg

Costs:

free

Address:

IRCAD

Hôpitaux Universitaires

1, place de l'Hôpital

67091 Strasbourg Cedex (France)

[↗ Registration: Meet & Match Computer- and robot-aided surgery](#)

Alsace BioValley and BIOPRO Baden-Württemberg host their 15th Meet & Match event on the topic **computer- and robot-aided surgery** on **25th of June 2018** at **IRCAD in Strasbourg**.

The event focuses on current trends, technologies and instrumentation in computer- and robot-aided surgery as well as on imaging and virtual & augmented reality in the operating room. Furthermore the topics simulation and training for surgeons

will be discussed. Two keynotes and eight talks will highlight current trends and research and development projects.

Company representatives and project leaders from the healthcare industry as well as academic researchers from both sides of the Rhine – France (Grand Est region) and Germany (Baden-Württemberg) – meet each other to generate new impulses or partnerships for joint developments. This event will give an overview on current issues in the field and will be a great opportunity for medical technology companies and academic labs to present and envision future approaches.

To intensify the networking attendees will have the possibility to present their company or research group in a two-minute presentation in the **short presentation session** prior to the networking lunch. The number of participants in this session is limited and arranged for producing, researching and developing companies and research institutions. A selection will be made by the organisers. Please apply for a pitch in the short presentation session **until 1st of June** via the registration form.

Additionally, a 30 minutes visit of the French research and training center IRCAD (event location) will be offered starting at 5 pm. Only a limited number of places are available. Please register for the visit in the registration form. Places will be allocated in order of registration.

The participation in this event is **free of charge**. Registration is mandatory. The presentations will be held in **English**.

The Meet & Match takes place the day before the partnering event MedFIT and allows participants to use the synergies of both events.

## Programme:

10:00 | Registration & Welcome Coffee

10:30 | Welcome

Alsace BioValley & BIOPRO Baden-Württemberg

10:40 - 12:45 | Keynotes & Short Presentation Session

**Prof. Jacques Marescaux, Président de l'IRCAD | France**

**Dr. Klaus Irion, KARL STORZ SE & Co. KG | Germany**

**Dr. Stefan Wilhelm, Stryker Leibinger GmbH & Co. KG | Germany**  
Robot-aided surgery

**Short Presentation Session**

12:45 | Networking Lunch

13:45 | Talks -part I

**Prof. Bernard Bayle, Icube | France**  
Image and Robot Assisted Surgery

**Prof. Oliver Burgert, Hochschule Reutlingen | Germany**  
Steps towards the intelligent operating room

**Prof. Pierre Renaud, Icube | France**  
SPIRITS: 3D printing for the design of surgical robots and systems

**Dr. Nikolaos Deliolanis, Medical Faculty Mannheim of Heidelberg University / Fraunhofer IPA, Project Group for Automation in Medicine and Biotechnology (PAMB) | Germany**  
New opportunities for surgery through realtime multispectral imaging

14:45 | Networking Coffee Break

15:45 | Talks - part 2

**Johannes Horsch, Fraunhofer IPA, Project Group for Automation in Medicine and Biotechnology (PAMB) | Germany**

Robotic assistance for image-guided interventions

**Philipp Aicher, Aesculap AG | Germany**

New Technologies in the OR – How Mixed Reality and New Technologies support the Surgical Team

**François Jourdes, InSimo | France**

Robotic surgery technique simulation for dissection and suturing

17:00 | IRCAD visit

17:30 | End of the event
