FaBI Dissertation Prize for outstanding dissertations in the field of bioinformatics

Type:	Competition
Funded by:	Bioinformatics Research Group (FaBI)
Reach:	Germany

The Dissertation Prize will probably return in 2027.

The Bioinformatics Research Group (FaBI) is once again awarding the FaBI Dissertation Prize for outstanding dissertations in the field of bioinformatics. The FaBI board decides on the awarding of the prize. FaBI is a joint specialist group of the six scientific societies DECHEMA, GBM, GDCh, GI, GMDS and VAAM and represents more than 1300 bioinformaticians in Germany.

Prize:

In addition to prize money of €1000, the award winner will be able to attend the German Conference on Bioinformatics 2025 in Düsseldorf free of charge. Conference dinner, reimbursement of travel expenses (2nd class train or economy flight ticket) and three nights' hotel accommodation are included in the case of the face-to-face event. The award will be presented during GCB 2025 and includes the opportunity to present the research paper in a lecture.

Prerequisites:

- The disputation date is in the period 1 March 2024 — 30 May 2025
- The candidate declares his/her willingness to participate in the GCB 2025 if he/she receives the award.

The supervisor of the dissertation is entitled to submit proposals if he/she has the right to award doctorates and leads a working group in German-speaking countries. He/she can only propose one candidate at a time.

Requested proposal documents:

- Letter of proposal from the supervisor with a detailed justification of the award worthiness (max. 2 pages)
- Dissertation
- Cv of the candidate including a list of presentations and publications
- Summary of the dissertation in German and English
- Proof of successful completion of the defence or viva voce
