# Drug Discovery Process

# Mission Statement

- Develop novel chemistry based platform for drug discovery
- Work closely with medicinal chemists to design compounds with more drug like properties
- Make drug discovery more affordable

# Build Smarter and Better Drugs

ChemDiscovery  
P L A T F O R M

*Turning Molecules into Medicine*

# Collaborators

National Research  
Council Canada

Conseil national  
de recherches Canada

Western Economic  
Diversification Canada

Diversification de l'économie  
de l'Ouest Canada

ChemRoutes  
CORPORATION

*making drug discovery affordable*

# Screening Partners

Institute for OneWorld Health  
A Nonprofit Pharmaceutical Company

**UCSF** University of California, San Francisco

**DNDi**  
Drugs for Neglected Diseases initiative

*making drug discovery affordable*

# Conclusion

- Unique chemistry based platform for drug discovery
- Exclusive and non exclusive models
- Established collaborations with wide range of pharmaceutical and biotech companies
- Cost effective
